

BETAbrite® Window Displays

Adaptive's full line of Betabrite Window Displays brings the attention grabbing features of an outdoor LED display right into your window. If code or cost restrictions have your hands tied, then the Betabrite Window Display is the perfect fit to provide the advertising punch you are looking for. Here are some of the exciting features available on these new models.

BETAbrite® 16x96

BETAbrite® 48x128

- RGB or Monochrome Red options
- 10mm pixel pitch
- Available in 6 different sizes to fit common window widths
- RGB models consist of 1 red/1 green/1 blue led per pixel
- Monochrome Red models consist of 1 red led per pixel
- Programmed with intuitive Betabrite XL software
- Manually adjustable brightness via the Betabrite XL software allows for the flexibility to use these as ultra-bright indoor displays
- All units include software, handheld remote, 50ft Ethernet cable, and 115VAC line cord
- Optional wireless kit available to connect your display to an existing LAN
- Able to use Alpha Protocol, so they are compatible with systems already built using our Alpha Indoor Line or can be integrated into new applications

MATRIX	# OF LINES	DISPLAY DIMENSIONS HxW:	CASE DIMENSIONS HxW
16 x 96	2 lines	6.3" x 37.7"	9.1" x 40.6"
